

Technical Order No. 3

Subject: Reg. inclusion of GPS locations in estimates.

With reference to the above cited subject, for maintaining record of various projects implemented by this Department in a more efficient way and ease the process of locating various projects, you all are directed that GPS coordinates of site/water source of project should made only be included in all estimates of any kind of project implemented by this Department. Further, specifically for underground pipeline projects and irrigation projects from Sewerage Treatment Plants (STPs), GPS location of fathest point i.e. endpoint of the longest or farthest branch of pipeline should also be included in all estimates.
